

# Heavy Duty Stainless Steel Cable Ties Coated

## Features & Benefits

- Low fire hazard
- Comfortable Usage
- Steel Cable Ties Coated with Black Polyester for Enhanced insulation, & added outdoor durability
- Self-locking head design speeds installation and locks into place at any length along tie body
- Multifaceted Resistance
- UV-Resistant
- Securing cabling
- Polyester coated stainless steel
- High tensile strength
- Fire proof, UV resistant and halogen free
- Secure and easy to fit with a non-releasable rollerball locking mechanism
- Coating is non-toxic, halogen-free Polyester based material
- High-Quality Construction
- Strong Load Support

## Applications

Cable ties are used for cable management as a type of fastener, for holding items together primarily electrical cable or wire. Provide the ultimate support for network cables and can be used in a wide range of indoor, outdoor, and underground (including direct burial). These stainless-steel ties are suitable for applications in industries such as:

- Oil and gas
- Marine and Ship building
- Maintenance and Mining
- Automotive and mass transit
- Defence Services

A) Initial Position

B) Wedge Lock Position
