Product Information

The Garelock security seal is a strong and durable polypropylene pull-through seal, available (if required) with a tear-off facility - to allow easy removal without the need for tools.

With their tamper-evident designs and sequential identification numbers for simple tracking and verification, The Garelock Security Seals provide a reliable solution for protecting your cash bags, roll cages or even clinical waste. These seals, have a high tensile strength, and are effective in any situation since they can tolerate harsh stresses and environmental factors.

These seals help businesses adhere to industry rules and safeguarding their brand integrity by offering increased protection and lowering losses due to theft and tampering.

Due to its many uses in the retail, food and beverage, pharmaceutical, and logistics industries, as well as its ability to provide peace of mind, Garelock Security Seals is an excellent solution for any company.
