

Cable Pulling Socks – Single Eyed

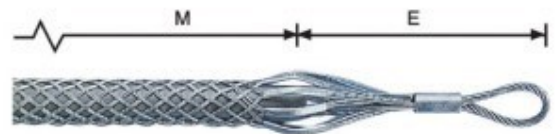

Application

Cable Grips, often known as Cable Socks, Cable Stockings or Chinese Fingers are hand woven using galvanised stranded high tensile steel wire, they are a quick and efficient way of installing and controlling a whole host of electrical cables. Cable Socks can be re-used providing suitable inspection of the item, and can be used to support or pull a range of cylindrical objects within their grip and load pulling capacity.

The Socks are available as Standard Single Eye, Single Weave (sizes 4mm - 32mm) and Single Eye, Double Weave (sizes 30mm - 110mm)

Specifications

Material: Galvanised Steel

Size Range	Length	Minimum Breaking Strain
4-6mm	220mm	134Kg
6-10mm	260mm	207Kg
10-13mm	370mm	390Kg
13-16mm	410mm	567Kg
16-19mm	520mm	814Kg
19-25mm	550mm	1174Kg
25-32mm	580mm	1854Kg
30-40mm	900mm	3696Kg
40-50mm	900mm	5376Kg
50-65mm	900mm	5490Kg
65-80mm	900mm	7320Kg
80-95mm	900mm	7320Kg
95-110mm	900mm	10613Kg
