

# Hilltop Automatic webbing cutter with Hot Knife Ribbon Tape Cutter

**With button-Switching, you can cut strip tapes automatically and neatly.**

A reliable, easy-to-use and compact heat cutter for hot cutting works on webbings, braided sleeving and tubing's.

Built with adjustable temperature to provide optimal performance and automatic job stop when the end of the material is reached.

This cutter has a maximum cutting width of 90mm allowing potential for a wide range of materials to be cut using it. Materials can also be cut parallel to each other to increase productivity.

Strip labels with max. 90mm wide and can be cut at a range of 15mm-300meter long.

## Special Features

- **High Speed:** It can cut 100—110 cuts per minute. (50mm Long)
- **Cutting Type:** Because the Hot Knife melts the end of the label, the cutter seals it neatly without fraying. The blades are durable, due to being made from High Speed Steel.
- **Automatic Operation:** it works automatically once the Length and quantity have been set.
- **Automatic Stopper:** it stops automatically if materials run out during operation.
- **Memory:** Once the length, quantity and speed are set, these options are saved. Even after powering down, these saved options will still be there.

Cutting Knife	Hot-Cutting (250-400°C)
Max. Cutting width	90mm
Speed	120-140 cuts/min (50mm)
Range of Cutting Length	15mm ~ 300mtr
Weight	Ca. 25kg
Accuracy	Stepping Motor ensure precise length
Cutting Type	Sealed neatly without fraying
Parallel Cutting	Several strips Parallel
Temperature	Controller via electronic control panel
Automatic Operation	Length, Quantity & Speed can be saved
Auto-stop	Auto-stops when material is depleted
Memory	Length, quantity & speed can be saved
Multiple Knife Stroke	Possible to have multiple knife strokes
