

Introducing

RW-175-E

Highly flame-resistant, high-temperature, chemical-resistant RW-175-E tubing provides tough, semirigid, very-thin-wall insulation and strain relief of multipin connectors, solder joints and other delicate electrical connections and terminations. It is well-suited for applications that require dense packing of components or visual inspection of covered components. It is especially suitable for applications requiring outstanding abrasion and cut-through resistance and superior chemical and solvent resistance. Its high temperature performance meets or exceeds military and industrial standards.

KEY FEATURES

- 2:1 shrink ratio for all standard sizes
- · Tough, semirigid, very-thin-wall insulation
- High flame-resistance, meeting the requirements of IEC 60684-2, also with UL and CSA VW-1 flammability rating
- High temperature performance that meets or exceeds military and industrial standards
- Protection from most industrial solvents, fuels, and chemicals
- Offers improved clarity (clear version) and increased resistance to crazing when compared to previously offered solutions

ELECTRICAL

- Provides excellent electrical insulation
- Not recommended for use as a primary insulator at temperatures exceeding 135°C [275°F]

MECHANICAL

- Tough modified polyvinylidene fluoride material provides outstanding abrasion and cut-through resistance
- Excellent for strain relief when installed on delicate electrical connections and terminations

TEMPERATURE RATING

- Full recovery temperature: 175°C [347°F]
- Operating Temperature range: -55°C to 175°C [-67°F to 347°F]

STANDARDS AND SPECIFICATIONS

- RW-3029/1
- UL 224 VW-1
- CSA C22.2 No. 198.1-98 VW-1

ORDERING INFORMATION

- Colour: Clear (-X) (standard); Black (-0) (nonstandard)
- Standard packaging (-STK): 1.2m [4 ft.] lengths
 Optional packaging (-SP): Spool, varying lengths (consult TE for details)
- Ordering description: Specify product name, size, colour and packaging; for example, RW-175-E-3/16-X-STK.

APPLICATIONS

- Appliances
- Military and commercial aircraft
- Commercial electronics and communication
- · Industrial equipment
