

Heavy Duty Automatic Cable and Wire Insulation Stripper

SKU: HTP-AS16-PC

Robust, self-adjusting automatic wire stripping pliers for high volume production and heavy field use. A powerful, heavy-duty wire and cable stripper capable of handling modern insulation wires and cables up to 16mm².

- Heavy-duty wire and cable stripper
- Fully self-adjusting throughout its capacity range.
- Capable of handling modern insulation wires and cable
- Power adjuster
- Integral Wire Cutter
- Variable Gripping Power
- Replaceable Gripping Pads
- Dimensions (L x H): 225mm x 100mm
- Weight: 290g

Powerful, heavy duty wire and cable stripper capable of handling modern insulation wires and cables up to 16mm². The tool is constructed from glass filled polyamide for strength and lightness with steel liners or added rigidity.

Fully self-adjusting throughout its capacity range the Maxistrip is equipped with profiled stripping blades and a gripping/stripping power adjustment facility to compensate for variations in insulation. A powerful one-hand action grips and strips the cable in one operation

- Detachable wire length stop.
- Integral wire cutter and variable gripping power control.
- Replaceable gripping pads.
- Fully self-adjusting throughout its capacity range
- To strip simply insert wire and squeeze handles together. The tool automatically grips and strips the wire in one operation without damage to the conductors.

Technical specification

Stripping Round wires from 0.25mm² to 16mm²
Round 3-core cables up to 1.5mm²

Cutting Up to 6mm² stranded copper conductor

Length 225mm

Height 100mm

Weight 290gms

Heavy Duty Automatic Cable and Wire Insulation Stripper - Up To 16.0mm²
