## Function description

Cordless and powerful bonding for up to 90 minutes. The MG 3011 with 18V Bosch PFA battery system has two temperature settings of 130 °C/200 °C. This is bonding for professionals – portable, flexible and powerful. The cordless glue gun is equipped with the long nozzle Ø 2.8 mm as standard. The set is supplied in a sustainable paper case.

## Technical specifications

|                          |                     |
|--------------------------|---------------------|
| Temperature              | 130 – 200 °C        |
| Warm-up time             | 2 min               |
| Delivery rate            | 20 gr/min           |
| Max. stick diameter      | 11 mm               |
| Temperature display      | LED segment display |
| Function, hanger         | No                  |
| Soft grip                | Yes                 |
| Idle mode                | No                  |
| Nozzle can be changed    | Yes                 |
| Stroke adjustment        | No                  |
| Temperature, adjustable  | Yes                 |
| Temperature accuracy +/- | 5 °C                |
| Heating element          | PTC heating element |
| Voltage range (min)      | 18 V                |

|                               |                                                                                      |
|-------------------------------|--------------------------------------------------------------------------------------|
| Rechargeable battery run time | up to 90 minutes                                                                     |
| Rechargeable battery voltage  | 18 V                                                                                 |
| Rechargeable battery capacity | 2.5 Ah                                                                               |
| Rechargeable battery type     | Li-ion                                                                               |
| Restart protection            | No                                                                                   |
| Power supply, detail          | Rechargeable lithium-ion battery                                                     |
| Suitable for                  | Rubber, Wood, ceramic, Leather, Metal, Paper, Card / cardboard boxes, Tarpaulins, PP |
| Melt temperature              | 130 – 200 °C                                                                         |
| Dimensions (L x W x H)        | 256 x 55 x 178 mm                                                                    |
| Version                       | including rechargeable battery and charger                                           |
| PU1, net weight               | 0,705 kg                                                                             |
| Manufacturer's Warranty       | 3 years                                                                              |
| PU1, EAN                      | 4007841069018                                                                        |
| Scope of delivery             | incl. 18V 2,5Ah PFA battery, PFA charger & 3 ultra power glue sticks                 |
