

Threaded Nylon Wall Plugs 10mm x 38.8mm

Specially threaded for a secure hold when applied into a drilled hole. Large hauling capacities are made possible by the sturdy nylon construction, which also provides a high friction grip to avoid shifting. The most secure grasp in any environment is made possible by the industry standard size, which is 10 mm wide by 38.8 mm long.

Features and benefits

- Made from high strength nylon
- Short length ideal for dry walls
- High friction grip to avoid slipping
- Can be used in conjunction with our Wall Mounting Cable Ties
- Screw Mounting
- Standard Industry Approved Size
- Pull Strength (N): 400

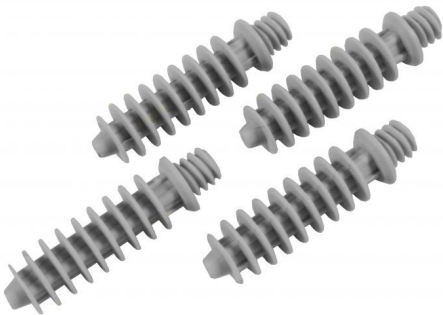

Technical characteristics	
Pull Strength (N):	40N
Dimensions	10mm wide x 38.8mm long
Material	Nylon

Threaded Nylon Wall Plugs 10mm x 38.8mm

Specially threaded for a secure hold when applied into a drilled hole. Large hauling capacities are made possible by the sturdy nylon construction, which also provides a high friction grip to avoid shifting.
