Product Information

General purpose Virgin Nylon PA66 cable ties are an ideal solution for securing wheel trims to your vehicle. The silver finish gives a discreet finish and the tough plastic makes for a hard wearing product all year round.

These cable ties are excellent for outdoor use as they are UV resistant making them ideal for use on wheel trims.

- Discreet and Secure
- Self-locking for fast and easy application
- Excellent resistance to weathering and ageing
- Bent finger grip and low threading force for quick installation

Specifications
